CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.
CHICAGO, Jan. 2 — Wheat and cats
were heavy and slightly lower today;
corn firm and provisions steady.
Wheat exhibited a flurry of firmness on

corn strength, but at no time did the price equal yesterday's close. Against the price were generally lower cables, easier ocean freights, a poor cash demand, both domestic and export, and heavy primary receipts. At 925c testing orders for May were reached, and the close, while under yesterday, was '5c over the bottom. The strength of corn was interrupted only once when pit traders, following the early buying, sold to secure quick profits. This was near the close, and knocked only 4c off the top of the price. Argentine weather, still dry, was the factor, as has been the case recently. So important has the influence of this surplus grain country become in its relation to the country become in its relation to the rest of the world that the Board of Trade, has arranged to receive Buenos Ayres quotations direct. One authority es-timates that the Argentine corn crop will be 40,000,000 bushels under last year's. An-other expert declared that the crop was too far advanced to suffer much from the hear

the heat. Cash oats, aggregating 300,000 bushels were sold today and the price advanced

best as mostly so lower. There were, however, a few sales that showed little, if any, decline, while a few others looked even more than a nickel lower than the general run of sales on Tuesday. As generally is the case, the packers were by far the principal factors in the trade, by far the principal factors in the trade, though a very fair shipping demand was in evidence this morning, hogs bought as shippers geing generally steady to a nickel lower. The packers' trade was done laregly at a nickel reduction and the movement was fairly active most of the time. There was, however, a spot in the middle of the market when the packers displayed more activity than at

HOGS-The trade could be discribed

The other properties where the properties of the

season, the prospects early in the morning being for a good, active trade at prices stronger than yesterday. A fair volume of trade took place in fat ewes and in cases a little higher. Very little was doing in lambs during the opening rounds, but what few changed hands in that time were generally steady with a decidedly weak undertone. The general demand for fat offerings did not seem nearly so broad as on the last few days, which was due to the extremely weak feeling prevailing in the eastern trade in dressed mutton. Scarcely half of todressed mutton. Scarcely half of to-day's supply had been disposed of before there was an apparent change for the worse in the trade, and from that time on prices in ceneral had a lower tendency. Included in the early trade were several loads of fed western lambs that changed hands at \$8.55 and several houches of red ewes at \$5.50. Some Mexican yearlings brought as much as \$8.15. While the movebrought as much as \$8.15. While the movement was fairly active at the openins,
closing trade was somewhat slow and
draggy, a complete chearance not being
made until late in the forencon.

As previously mentioned, receipts were
liberal, there being in the neighborhood
of fifty-two cars of 11,000 head reported
in as against 10,645 head last Wednesday
and \$5,323 head on the same day last year.
Compared with this time last year, when

Compared with this time last year, sheep receiptes continue liberal, as during the first three days of the week about 43,699 head showed up as against 20,600 head for
